PROFESSIONAL SUMMARY

IT Professional with 3+ years of experience in Cloud, DevOps, and Software development. Hands-on exposure to CI/CD pipelines, Docker, Kubernetes, Terraform, Linux, and AWS. Seeking a Junior DevOps / Cloud Engineer role to support scalable infrastructure and deployment automation.

PROFESSIONAL EXPERIENCE

ElevaTech Consulting (Project-Based, 3-Month Contract)

Junior DevOps Engineer | September 2025 – November 2025

- Supported DevOps activities for a short-term client project
- Assisted in building and maintaining CI/CD pipelines using Jenkins
- Used Git for source code management
- Assisted with Docker containerization and basic Kubernetes deployments
- Performed Linux system operations, monitoring, and troubleshooting

Fujitsu Philippines (3-Year Contract)

Application System Engineer – Cloud & Software | *Apr 2022 – Apr 2025*

Cloud & Infrastructure

- Worked with AWS and Microsoft Azure to configure and integrate cloud services
- Provisioned infrastructure using Terraform and Azure Resource Manager (ARM)
- Automated tasks using Python and PowerShell scripts
- Supported IaaS environments, virtual machines, and storage services
- Implemented cloud security controls including IAM, firewall rules, and access policies

Software & Operations

- Supported system upgrades and platform migrations
- Collaborated with developers and operations teams to troubleshoot and resolve issues
- Documented incidents, task progress, and testing results
- Improved system reliability and performance through proactive monitoring
- Implemented an AI chatbot using Dify.ai by creating a knowledge based from uploaded Excel files, enabling automated responses and improved user support
- Worked with multiple programming languages including Java, Cobol and SQL to support system operations and development tasks.

Infocom / PLDT

Technical Support | March 2021 – May 2021

- Provided technical support for network, internet, and telecom services
- Diagnosed connectivity and equipment-related issues
- Documented incidents and resolutions for reporting

EDUCATION

STI – Systems Technology Institute, Sta. Mesa

Bachelor of Science in Information Technology

Certifications: AWS Cloud Practitioner Essentials, Microsoft AZ-900 (Azure Fundamentals), AZ-204, CCNA DevOps Essentials by IBM

TECHNICAL SKILLS

- Cloud: AWS, Microsoft Azure
- CI/CD: Jenkins
- Containers: Docker, Kubernetes
- IaC: Terraform
- OS: Linux (Ubuntu, CentOS)
- Scripting: Python, PowerShell, Bash
- Databases: MySQL, Postgre, MSSQL
- Other: YAML, Java, Virtual Machines
- AI: Dify.AI
- Monitoring: Prometheus, Grafana
